Clan McTavish was armed with only one or two small guns for defensive purposes, but her encounter with the Moewe was described by the commander of the latter as an "exciting combat." The fact that the Moewe sustained no damage in the fight is accepted as indicating that her guns were of larger caliber and longer range, as the Clan McTavish was sunk. The Appam, in charge of the prize crew, steamed hurriedly back to the scene and rescued four members of the crew of the sinking Clan McTavish who were struggling in the water.
